

SUPERCCELL

A daily supplement containing multi-vitamins, minerals, essential amino acids, anti-oxidants and bovine colostrum. To expect the best performance from your greyhound on a consistent basis, you need to ensure the diet contains the necessary nutrients for proper functioning and well-being. Current diets lack many of these necessary nutrients. This is why a good multi-vitamin, mineral, amino-acid and antioxidant supplement can assist. Super-Cell supplies a solid nutritional foundation for the greyhound with excellent levels of vitamins, minerals (including iron), all essential amino acids, anti-oxidants (in their natural state) and Bovine Colostrum, all in one simple scoop.

Available in 450g, 1kg & 3kg
