

Coforta Injection

Indications:

Manufacturer: Bayer Australia Ltd.

Contains:

Butaphosphan 100 mg/mL, cyanocobalamin 50 microgram/mL.

Coforta® 100 Injectable Phosphorus Solution is a Phosphorus source; takes part in energy metabolism, stimulates fatigued smooth and cardiac muscle, supports liver function and positively influences the phosphorus level in blood plasma. Vitamin B12 influences protein, carbohydrate and fat metabolism and promotes the formation of red blood cells.

Use for disorders of metabolism due to poor or insufficient feeding, poor management or disease; disorders in development and nutrition of young animals due to disease early in life; prophylaxis of infertility and puerperal diseases; stress and exhaustion of healthy animals and to increase muscle efficiency; anaemia.
