

## Liniment

**Equinade Liniment** is a unique formulation designed to provide faster relief from stiffness and pain in racing and working animals. The premium quality ingredients penetrate quickly to stimulate the circulation of blood to joints and muscles which assists the body to minimise aches and pains.

Regular application of **Equinade Liniment** can help to relieve the following painful problems: muscular strain, rheumatism, shin soreness and tendon sprain. For use as a bracer/skin tightener before work, a refreshing leg wash or hosing down after work, simply dilute with equal parts of water and then apply.

Normal training and working schedules can be maintained when **Equinade Liniment** is used to reduce the impact of aches, pains and stiffness. **Equinade Liniment** has been used for more than 25 years in the racing industry and has never caused a positive swab test. For assurances against positive swabs, do not use 24 hours prior to racing.

Available in 500ml, 2.5lt and 20lt bottles from your local produce, pet or equestrian store

### **For Best Results**

Apply a small amount of **Equinade Liniment** to aching areas and sore muscles and then gently massage the affected area. Work the oil into the affected area for about 1 to 2 minutes. Do not rub vigorously or for long periods of time as blistering can occur.

It is recommended that **Equinade Liniment** be tested on a small area of the skin for any sensitivity before applying liberally. Do not use if the any sensitivity or discomfort occurs.

Do not apply to the face, any sensitive areas of the body or to open skin. Avoid contact with eyes and wash with water immediately if contact occurs.
