

# Fidos Flea Shampoo

**COMPOSITION:** Pyrethrins 1g/L, piperonyl butoxide 10g/L

**DESCRIPTION:** Mild nonirritant formulation for sensitive skins; kills fleas; conditions and cleans coat, reduces animal odours; produces a soft, lustrous coat.

**ACTIONS:** In insects the natural Pyrethrins, which have no anticholinesterase activity, cause slow closure of the sodium channel activation gate resulting in hyperexcitation followed by convulsions and death. They are synergized by piperonyl butoxide, which has a minor repellent action in its own right.

**INDICATIONS:** Fleas and lice on dogs and cats.

**CONTRAINDICATIONS:** Administer to sick or convalescing animals.

**WARNINGS:** In paralysis tick areas, daily examination of dogs and cats is desirable.

**PRECAUTIONS:** Use with caution on puppies and kittens.

**SAFETY DIRECTIONS:** After use and before eating, drinking, or smoking, wash exposed parts of the body. Avoid contact with the skin and eyes, and avoid breathing vapour.

**FIRST AID:** If poisoning occurs, contact a doctor or Poisons Information Centre. Australia 131 126.

**DISPOSAL:** Dispose of empty container by wrapping with paper and putting in garbage.

**ADVERSE REACTION:** May cause dribbling and unsteady gait in cats. If one or both occurs, wipe off excess product and contact a veterinarian.

**DIRECTIONS FOR USE:** Wet the coat thoroughly with warm water and apply shampoo at several places. Work into a good lather and massage well into the coat. Leave for five minutes, then rinse with clean warm water and dry thoroughly.

**PRESENTATION :** Shampoo: 250mL, 500mL, 5L.

**STORAGE:** Store below 30°C (Room temperature). Protect from light.

**POISONS SCHEDULE:** Nil

**APVMA NUMBER:** 4881
