

Staysound - Max RBC

Vitamin and Iron Liquid supplement utilizing the action of L-Lysine.

Iron: 200mg per 30ml

- Has a role in maintaining normal metabolism.
- Is required for the production of haemoglobin in red blood cells.

L-Lysine: 1650mg per 30ml

- Has a role in normal protein synthesis.
- Has a role in maintaining integrity of skin and coat.

Also supplies a full range of B group vitamins including Vitamin B12.

Vitamin B1 (thiamine)

- Has a role in the metabolism and maintenance of normal muscle and nerve function.
- Has a role in assisting in the maintenance of normal appetite and bodyweight.

Vitamin B2 (Riboflavin)

- Is required for normal general metabolism and growth.
- Has a role in maintaining integrity of skin, mucous membranes.

Vitamin B3 (Niacin)

- Involved in general metabolism and red blood cell formation.
- Has a role in maintaining normal healthy skin and hair condition.

Vitamin B5 (Calcium Pantothenate)

- Has a role in normal energy metabolism, reproduction, growth and nerve function.
- Involved in transmission of nerve impulses.
- Needed for health of skin and hair.

Vitamin B6 (Pyridoxine)

- Has a role in normal general metabolism, nervous system function and vision.
- Is involved in red blood cell formation.
- Has a role in maintaining normal healthy skin and vision.

Vitamin B9 (Folic Acid)

- Involved in general metabolism.
- Involved in the formation of red and white blood cells and haemoglobin.
- Has a role in blood cell production.

Vitamin B12 (Cyanocobalamin)

- Has a role in general metabolism, nervous and reproductive function.
- Has a role in blood cell production.

These B group vitamins are mixed in balanced range of Iron, Copper and Zinc.

Copper

- Has a role in iron metabolism, bone development, and maintenance of elastic connective tissue.

Zinc

- Has a role in general growth and metabolism
- Is required for normal bone and cartilage development
- Is involved in maintaining the integrity of skin and mucous membranes, hair and hooves and in wound healing.
- Has a role in maintaining a normal healthy coat.
