Accelerator Oil

Omega 3, 6 & 9 Fatty Acid Feed Supplement for greyhounds

Accelerator Oil is a high energy supplement of fatty acids with Omega 3, 6 and 9 ideal to add to the diet of Greyhounds.

The source of fats chosen as energy for performance dogs is a critical factor if you wish to gain an edge over your competitor.

Dietary fat is essential to increase the energy levels of greyhounds.

Dietary fat assists in reducing health risks resulting from unbalanced diets.

Dietary fat is a good source of essential fatty acids, and helps in the absorption of fat soluble vitamins.

CONSTITUENTS: Each Litre of Accelerator Oil for Greyhounds contains:

Alpha Linolenic Acid	Linoleic Acid
Oleic Acid	Stearic Acid

DIRECTIONS FOR USE, DAILY DOSAGE AND ADMINISTRATION:

Introduce to the diet gradually. As each animal is different, monitor the bodyweight and alter the dosage accordingly.

Add 20ml to the morning and evening feed of the greyhound.

The dosage can be increased for Racing Greyhounds on lean meat diets.

Available sizes: 5L and 20L
