

# RAPIDVITE

## Energize-ER

Electrolyte Replacer with Vitamin C and Vitamin E For Greyhounds

Energize-ER is an aid in the treatment and prevention of Electrolyte loss through dehydration. Energize-ER is a formulation of potassium and Sodium Salts to assist with dehydration, hot weather and heavy work programmes.

Energize-ER administered in conjunction with a plentiful supply of clean drinking water will minimise the effect of disturbed electrolyte fluid status and aid in restoring the balance.

<b>CONSTITUENTS: Each kg of Rapidvite Energize(ER) contains:</b>			
Potassium Chloride	500g	Magnesium Sulphate	4.2g
Citric Acid	4.2g	Sodium Chloride	1.24g
Sodium Citrate	6.6 g	Sodium Sulphate	1.0g
Vitamin C	1.5 g	Vitamin E	3,000 IU
Maltodextrin	470.86 g		

### **DIRECTIONS FOR USE, DAILY DOSAGE AND ADMINISTRATION:**

Rapidvite Energize-ER can be mixed with feed or water.

<b>GREYHOUNDS</b>			
Greyhounds in training (22-30 kilogram body weight)	10g daily	Greyhounds in training (32-42 kilogram body weight)	15g daily
Breaking pups (12-24 months of age)	5g daily		

In case of cramping syndromes, double the dose for 3 days.

Energize(ER) can be used as refreshment, after event or heavy training by mixing with water.

Available sizes 500g, 1.5kg, 3kg and 20kg
