

RAPIDVITE

RAPID-DUAL D & A FOR HORSES

Rapid-Dual D & A is a gentle but effective diuretic and kidney cleanser it is used as an aid in the treatment and prevention of Electrolyte loss through acidosis and dehydration.

Electrolyte imbalance may occur during training, travelling, hot weather and in cases of gastro enteritis and diarrhoea.

Symptoms of electrolyte imbalance may include dehydration, heat exhaustion, cramp and fatigue.

When administering Rapid Dual D & A ensure a plentiful supply of clean drinking water is available.

Rapid Dual D&A helps to flush out and remove toxins that build up in the kidneys that may occur with high protein diets or unbalanced work patterns. It is suggested that Rapid Dual D&A be used for 3 consecutive days to cleanse the system.

CONSTITUENTS: Each 1kg of Rapid Dual D&A contains:
