

Troy Debrisol
enzyme wound spray

Troy Debrisol

Enzyme Wound Spray

Actions

The enzyme trypsin liquifies and removes non-living tissue; it does not affect living tissue. Balsam peru provides a covering to help prevent recontamination. Castor oil has a soothing effect and is a solvent and vehicle for the other ingredients.

Indications

Clears away pus, dead and decaying tissue and promotes rapid healing of wounds, ulcers and abscesses with minimal scarring in dogs, horses, pigs, cattle and sheep. Effective against proud flesh.

Directions for use

Shake well before use. Spray the affected area 2 - 3 times daily. Wipe off any excess spray from healthy surrounding tissue. Repeated use on open wounds is not recommended.

Presentation

Pump spray 125mL and 500mL trigger spray.

Composition

Castor oil 91.3g/L,
Balsam peru 12.0g/L, Trypsin 80.0mg/L.

Withholding period

Nil.

Storage

Store below 30°C
(room temperature). Flammable liquid 3. Ethanol Solution. Keep away from naked flame.
