

FERAMO® GREYHOUND

ESSENTIAL MULTI-VITAMIN AND MINERAL SUPPLEMENT

Feramo-Greyhound has been formulated as the "foundation" supplement to correct minor imbalances and inadequate feed levels in all racing, breeding and growing greyhounds. Feramo-Greyhound was the first supplement specifically formulated for greyhounds.

WHAT IS FERAMO?

- ✓ Helps to maximise growth, energy and performance
- ✓ Use to maximise breeding potential
- ✓ Improves coat condition
- ✓ Promotes inner health
- ✓ Australia's first greyhound nutritional supplement

Available in 450g, 3kg & 9kg tubs

WHY CHOOSE FERAMO?

Contains essential vitamins and minerals to maintain good health and well-being

FERAMO is a foundation supplement to which other specific supplements can be added according to your dog's needs.

FERAMO is a concentrated formulation of all essential vitamins, minerals and trace elements required to maximise strength, growth, performance, breeding potential and health. It is an essential part of any feeding program. Feramo will help your dog achieve his racing potential.

WHEN TO USE FERAMO

Feramo-Greyhound is recommended as a **set rate daily** supplement for all greyhounds. The standard 1 teaspoon (4g) dose is adequate for racing greyhounds, and other daily specific sources of electrolytes (Betacel®), calcium (Calci-D®) and Vitamin E (White-E®) should be included to meet elevated demands imposed by racing.

FERAMO[®] GREYHOUND

ESSENTIAL MULTI-VITAMIN AND MINERAL SUPPLEMENT

WHY DOES MY GREYHOUND NEED A MULTI-VITAMIN AND MINERAL SUPPLEMENT?

Many greyhound diets may be deficient in essential vitamins and minerals. As these nutrients are essential for day-to-day bodily functions, dogs

require a ready supply for normal growth and optimum health.

QUICK REFERENCE GUIDE

INDICATIONS:

- Feramo greyhound is recommended to supplement a racing dog's diet as an aid in the prevention and treatment of vitamin/mineral deficiencies.
